# **SITUATION SUMMARY**

## **2021 Late December Storms, Statewide**

Unsettled weather has impacted much of California with multiple rounds of rain, heavy mountain snow, and gusty winds. This has prompted widespread road closures, power outages, and high avalanche risks across the Sierra. Another cold front will bring additional snow and rain this weekend ahead of drier and continued cooler than normal temperatures across the state.

## **California State of Emergency Proclamation**

On 12/30/21, Governor Gavin Newsom declared an Emergency Proclamation to support counties with recovery from winter storms.

# **WEATHER KEY POINTS**

**01/05/22 - 01/11/22**

## **Wednesday**

- Gusty north or northwest winds of 20 to 30 mph with local gusts to 55 mph are expected in the mountains of Southern California through Wednesday evening, with the strongest winds expected across the Kern County mountains
  - Locations most impacted include Interstate 5 through the Grapevine, Highway 58 through and below Tehachapi Pass, and Highway 178 through and below Walker Pass
- A few light showers are also expected across far northwest California through tonight, though with no significant impacts

## **Thursday - Tuesday**

- One more storm system remains on track to bring mainly light to moderate precipitation across northern and central California later Thursday night and Friday, along with a round of gusty winds of 40-60 mph across much of northern California and the Sierra
  - Snow levels will drop to between 4,500 and 5,500 feet across northern California, with impacts to travel possible at times due to snow and some blowing snow as well
  - This will be a rather fast-moving storm, limiting significant impacts, though gusty winds may lead to some downed trees and power outages, while briefly heavier lower elevation rainfall across northwest California could bring a few rock or mudslides
- Dry weather will make a return statewide into the weekend and early next week, along with lighter winds for most areas, though some locally breezy conditions are possible at times across the southern California mountains
